

**New Zealand's leading  
supplier of disposable  
consumer products**

#### ABOUT US

## Food Services and Personal Hygiene Products Distributor

**U**ni-Pak is an importer and wholesaler of disposable, recyclable and compostable consumerware and personal hygiene products. We've been supplying great value food wraps, drinkware, food containers, tableware, bags, gloves, clothing and janitorial consumables to NZ resellers since 2004. We manage this under the Emperor, Bastion and our composable Green Choice™ brands.

We supply over 700 different disposable product types across many markets, under the Emperor, Green Choice and Bastion brands. Our extensive range is gaining recognition throughout New Zealand as a result of our nationwide distribution footprint. Uni-Pak provides brand and product guidance and undertakes all sales, service and technical support. We are a forward-planning company with a sustainability-focus. We constantly seek opportunities to increase and enhance our disposables product range, and to build the distribution of our products through enhanced customer services and business efficiencies via our industry-specific resellers.

“ We supply the most comprehensive range of disposable consumer products in New Zealand ”

## We're about Innovation, Inspiration and Vision

### OUR VALUES

We value client and supplier relationships, and uphold traditional values of honesty, integrity and reliability. Our experienced team provides a willingness to help our customers. Our product range, industry knowledge and great customer service standards all ensure fast and reliable delivery of the right products.

### OUR LOCATIONS

Uni-Pak's head office and main warehouse are close to the rail network in Whanganui. This allows us to store and distribute our range with lower operating costs and less environmental impact. Our Christchurch distribution centre allows us to better service our expanding number of Christchurch resellers directly.

“ We supply the most comprehensive range of disposable consumer products in New Zealand ”

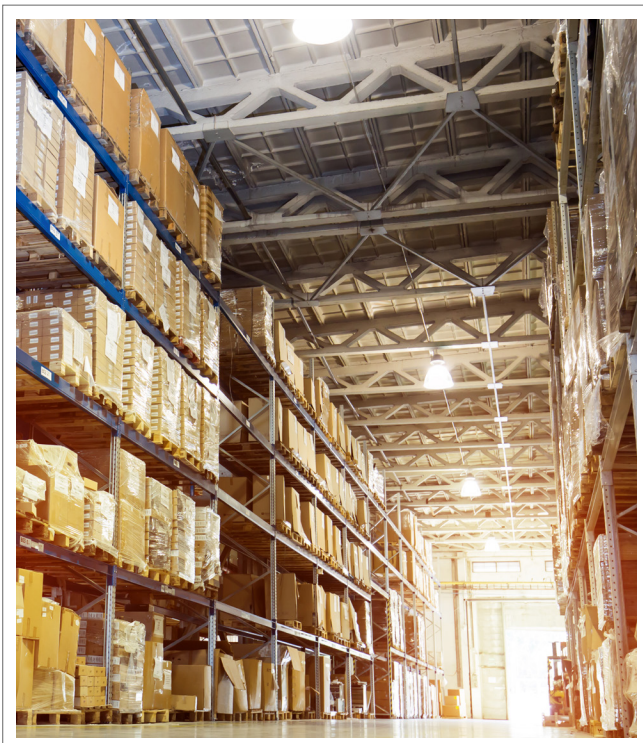

## Supplying products across many industries

### DISPOSABLE PRODUCTS RESELLERS

Our products are sold throughout New Zealand via a wide range of resellers. Our Bastion, Green Choice and Emperor resellers provide products to end-users in the food service, catering, packaging, healthcare, industry, cleaning, office and farming sectors.

### PACKAGED FOOD PRODUCERS

For high-volume users of our Emperor, Green Choice and Bastion products we supply direct. Our clients are typically large manufacturers of packaged food products or involved in safe-zoned processing lines that may also require regular cleaning.

“ We supply the most comprehensive range of disposable consumer products in New Zealand ”

## Focusing on strong product branding

### OUR BRANDS

The Emperor brand represents great value food service disposable products. The extensive range of quality products include food wraps, drinkware, food containers, tableware and bags and these are distributed throughout New Zealand only.

Bastion branded products provide personal barrier protection and hygiene solutions. Disposable products include gloves, clothing and janitorial, and these are distributed throughout Australia, USA, New Zealand, United Kingdom & Europe.

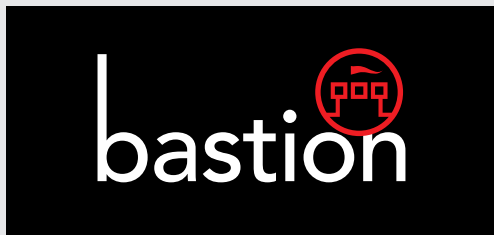

Green Choice compostable range of products are made from plant based products such as sugar cane, cornstarch or bamboo and produced to strict hygiene standards. These are natural materials and are friendly to the environment when discarded. We offer a full range of compostable products that can help your business be part of the solution in creating a healthier planet.

## Recycling and Sustainability

### RECYCLING OUR PRODUCTS

At Uni-Pak we acknowledge and understand the importance of waste minimization, especially since all our products are purchased and used by end users usually only for a short period of time before becoming regarded as waste. When people buy food and drinks in disposable containers they are also buying the packaging. With our busy lifestyles, and our consumption of convenience food and drink, we must all take responsibility for disposing of used packaging correctly (based on local council collection guidelines). Uni-Pak encourages everyone to take ownership of waste disposal and promotes the correct recycling of used packaging where possible.

### SUSTAINABLE BUSINESS PRACTICE

Uni-Pak endeavours to manage its operations in a sustainable manner and supply, where feasible, recyclable and biodegradable products.

- We accept responsibility for maintaining a healthy environment and a sustainable future.
- We promote the recycling of our products and offer compostable product options where feasible.
- We optimise our visit and travel plans to reduce CO2 emissions, and manage our fuel and energy use wisely.
- We reduce our waste output to landfills and increase our use of sustainable office consumables.

Uni-Pak is constantly analyzing our supply channels to offer products which are sustainably better than current offerings.

“ We supply the most comprehensive range of disposable consumer products in New Zealand ”
